Robison was born in 1957, and he began having seizures at the age of 12. At first, his seizures were relatively mild, but they gradually became more severe. By the time he was in his early 20s, he was having multiple seizures per day. Robison's seizures had a profound impact on his life. He was unable to hold a job, and he had to rely on government assistance to survive. He also struggled with depression and anxiety.

In 1987, Robison was finally diagnosed with epilepsy. The diagnosis was a relief, because it finally gave him an explanation for his seizures. However, it also made him realize that there was no cure for his condition. Robison had to learn to live with epilepsy, and he had to find a way to manage his seizures.

Robison eventually found success as an author and speaker. He has written several books about his experiences with epilepsy, and he has spoken to thousands of people about the disFree Download.
