The book is divided into two parts. The first part covers PHP, and the second part covers MySQL. Each part is divided into short, easy-to-follow lessons that will teach you everything you need to know to get started with these languages.

By the end of this book, you'll be able to:

- Create and run PHP scripts

- Connect to and query MySQL databases
- Create and manage tables and data
- Use PHP and MySQL together to build dynamic web applications

This book is perfect for beginners who want to learn PHP and MySQL quickly and easily. It's also a great resource for experienced programmers who want to brush up on their skills.

So what are you waiting for? Get started today with the *Php Mysql Language Crash Course Textbook Exercises In Hours Programming Books* and start building your own dynamic web applications!

Table of Contents

- 1.
2. PHP Basics
3. MySQL Basics
4. PHP and MySQL Together
5. Building a Simple PHP and MySQL Application

Exercises

Each chapter in this book includes exercises that will help you practice the skills you've learned. These exercises are designed to be challenging, but they're also doable. If you get stuck on any of them, don't hesitate to ask for help in the online forum.

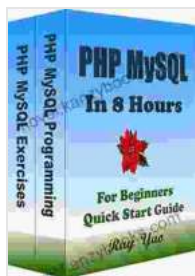

Support

If you need help with any of the material in this book, please don't hesitate to ask for help in the online forum. I'm always happy to help my readers learn PHP and MySQL.

About the Author

I'm a web developer with over 10 years of experience. I've written several books and articles on PHP and MySQL, and I'm passionate about helping others learn these languages.

I hope you enjoy this book!
